Anchoring detail.

Installation.

Anchored to the floor with expansion bolts. Finished with compacted material coating either continuous wet-pour rubber surfacing or rubber tiles.

Maintenance.

-Check: All fixing points. Screws and bolts must be periodically checked, then tightened and adjusted if necessary. The checking date must be annotated in order to establish a control.

Inspections.

-Routine Inspection: A visual and functional inspection must be carried out every 3 months in order to check that the module has suffered no harm due to vandalism or mishandling.

-Yearly Inspection: A full inspection of the entire installation must be done to check that it keeps all norm standards and has suffered no alterations.
